

I am writing in response to LPFM. As I understand it the LPFM will take priority over existing FM stations. One of these stations that will be effected by this is my favorite station K-LOVE. This station serves my family and my community by shring Christian music thst is safe for my children's ears, which there are not many stations like this any more. This is also a way to witness to many of my neighbors and friends. Pleases don't take this station off the air.
